

**OBJECTIVES and TARGETS**  
**FY 05**  
**Environmental Management System (ISO 14001)**

**REFUSE**  
**DISPOSAL**  
**DIVISION**

1) Regulatory Compliance (Continuous Improvement)

Objective: *Maintain Storm-water Runoff Impact Compliance to N.P.D.E.S. Permit.* Significant Aspect Numbers: 4, 11

- **Target:** Zero storm-water runoff violations from Regional Water Quality Control Board.

Objective: *Ensure Fecal Coliform Impact Compliance Within Mulch/Compost Operations.* Significant Aspect Numbers: 4a

- **Target:** Zero fecal coliform violations from Local Enforcement Agency as a result of “Greenery” operations.

2) Resource Conservation (Continuous Improvement)

Objective: *Greenery (Stationary Equipment) Emissions Reductions*  
Significant Aspect Numbers: 1B

- **Target:** Purchase new Trommel screen in FY05 to allow for dual product plus “overs” screening capability, include Tier II engine and electric motor technology review for increased fuel economy and emissions reductions.

Objective: *Ensure Gypsum (Dry Wall) Dust Impact Compliance within Compost Processing Operations*  
Significant Aspect Numbers: 2, 2a

- **Target:** Zero violations from Local Enforcement Agency or Air Pollution Control District regarding gypsum (dry wall) processing in the Greenery.
